

Front-end Developer

Apifon is looking for a mid-level Front End Developer to join our IT group in Thessaloniki. The appropriate candidate will be part of a team responsible for the analysis, design, development and testing of web applications that are intended for marketing campaigns, bi and analytics.

Main responsibilities

- Develop new user-facing features
- Build reusable components and libraries
- Solve user interaction problems and ensure the feasibility of UI/UX designs
- Shape and validate user inputs
- Optimize applications for perceived and actual performance, and scalability
- Collaborate with other team members
- Contribute to a stable, high performing web property

Requirements:

Proficiency with:

- Essential web markup, including HTML5, CSS
- Responsive Web Design, Fluid Layouts, Media Queries
- Front-end CSS frameworks, material design
- Server-side CSS pre-processing, such as LESS, SASS, Grunt, Node.js and Bower
- JavaScript, JS Frameworks and libraries like Angular, React, JQuery
- Cross-browser compatibility issues and ways to solve for them
- Front-end optimization tools
- Code versioning tools, such as SVN, Bitbucket, Git
- Excellent knowledge of PHP, MySQL
- Solid understanding of object oriented programming and design patterns
- Good knowledge of AJAX, HTML5, CSS3 and AngularJS or equivalent JavaScript Framework
- Strong background in Web Services (REST, SOAP, JSON)
- Good understanding of Java EE Architecture and Enterprise Web applications

Demonstrated familiarity with:

- Design Patterns and Pattern Libraries
- CSS GRID
- RESTful services and APIs
- Continuous Integration / Delivery
- Responsive web design with media queries and progressive enhancement
- Familiarity with unit testing and continuous integration best practices
- Experience in Zend Framework, Spring, Maven, TeamCity, JIRA is a plus
- Knowledge SOA principles

- Experience in Linux or UNIX OS

Education/Experience/Abilities:

- Bachelor's degree in Computer Science or relevant field
- 4+ years' experience web development with a demonstrable focus on front-end skills
- Up-to-the-moment knowledge of front-end web development, and an "always learning" ethic
- Ability to work independently, with strong team collaboration experience
- Ability to provide on call support of assigned applications

Personal Characteristics:

- Strong analytical and problem solving skills
- Ability to work independently and also as part of a team
- Excellent interpersonal and team building skills
- Highly self-motivated and methodical, with attention to detail

Qualified candidates can send their CV at hr@apifon.com, mentioning the position code FED0118.

All applications will be considered confidential. Apifon is an equal opportunity employer. For more information read our [HR Policy](#).
